

Math

Sorting Animals by Color

Today we are learning about classifying by color! We will sort animals by their color!

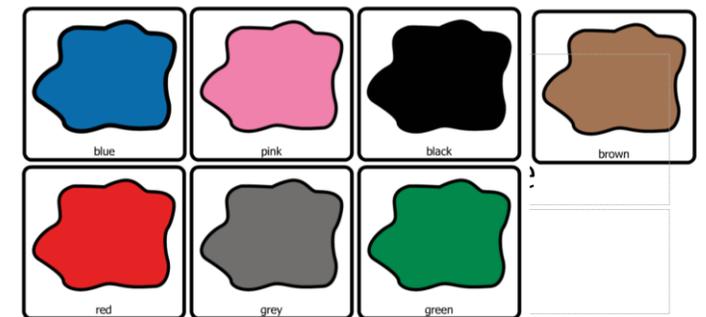

Materials needed for this lesson

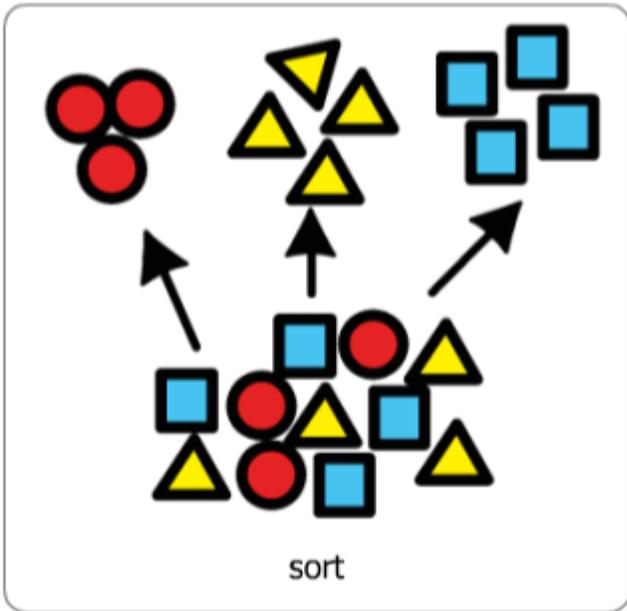

Any colored animal of any size and a bin to put them in.

You can use anything from around the house that is in multiple colors

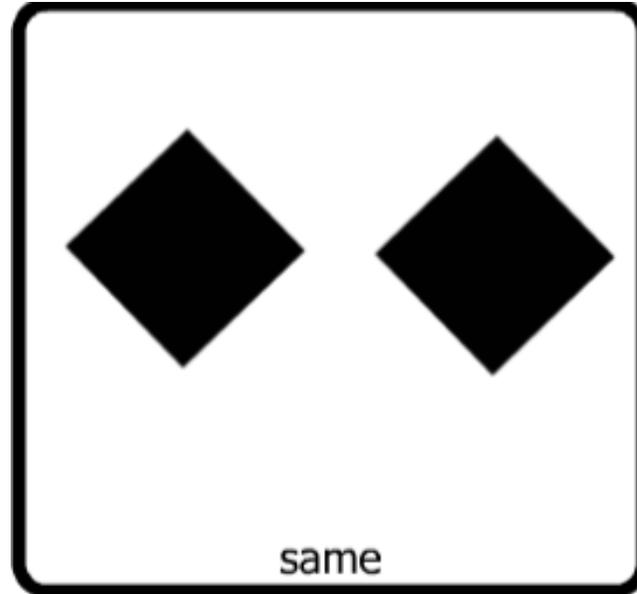

1 piece of paper in the following colors

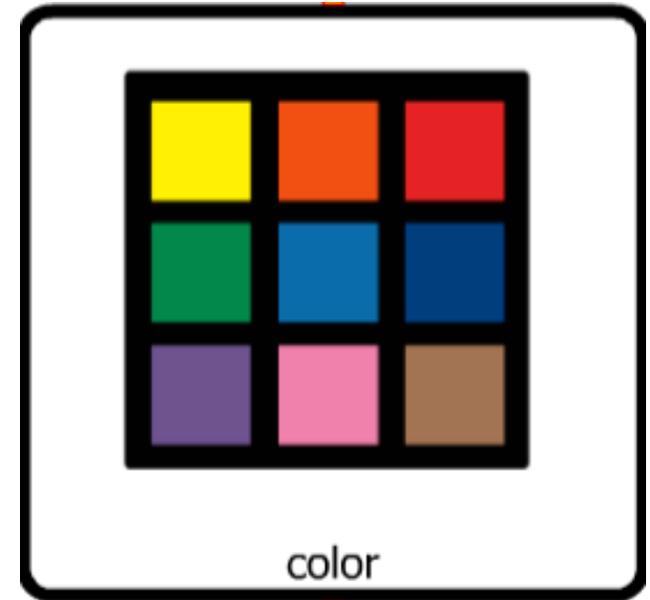

The vocabulary for today's lesson is

separating items into groups based on something that is the same.

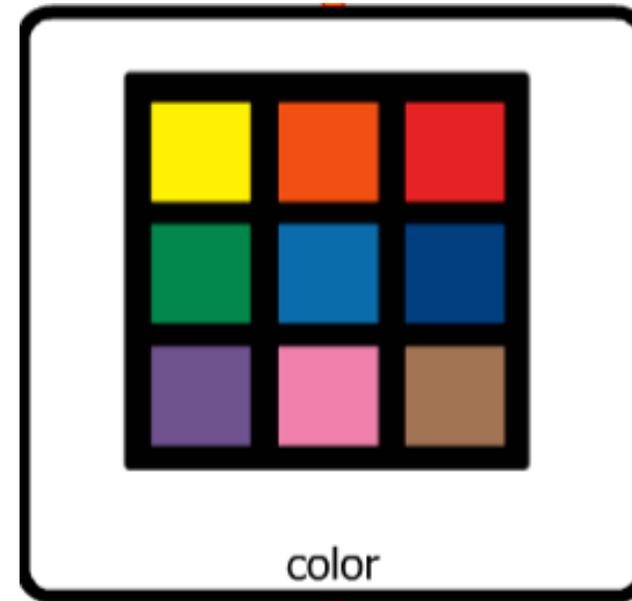

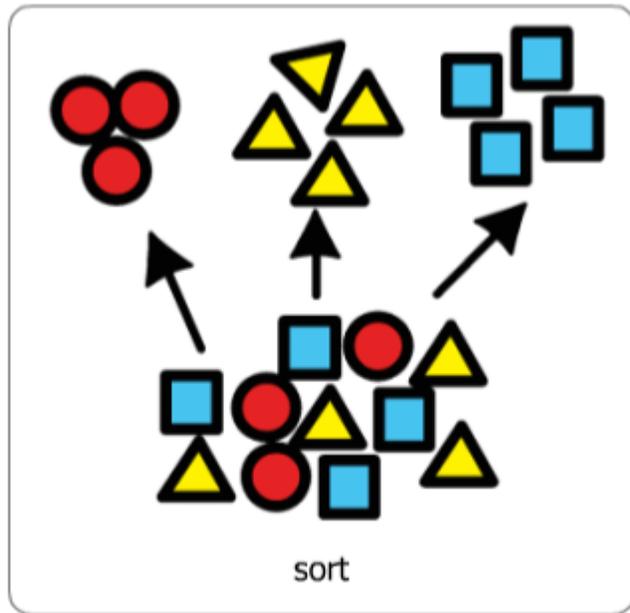

identical; not different

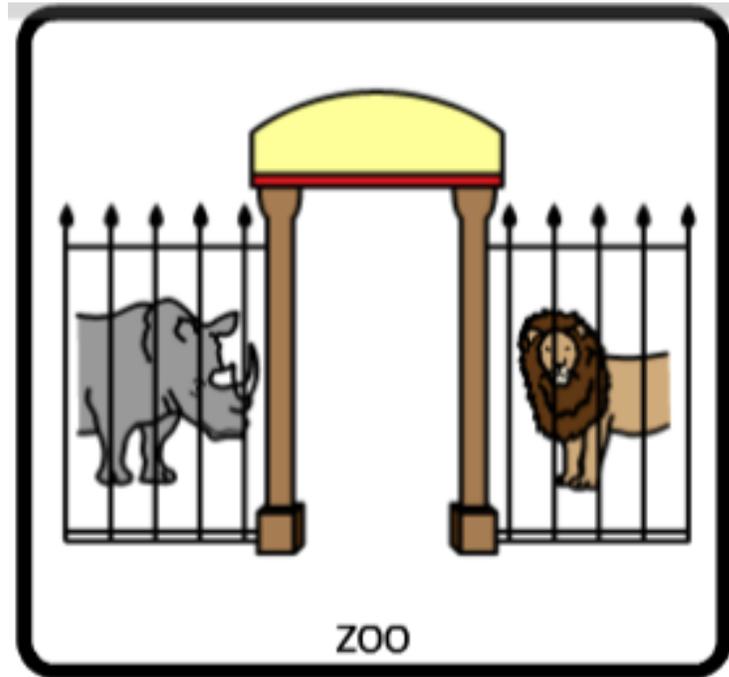

the property possessed by an object of producing different sensations on the eye as a result of the way the object reflects or emits light

Sorting is separating items into groups based on something that is the same. We want to match our animal to the same color paper.

We have a problem to solve today!
All of the animals have escaped from the zoo! Its is
our job to sort them back into the correct colored
homes!

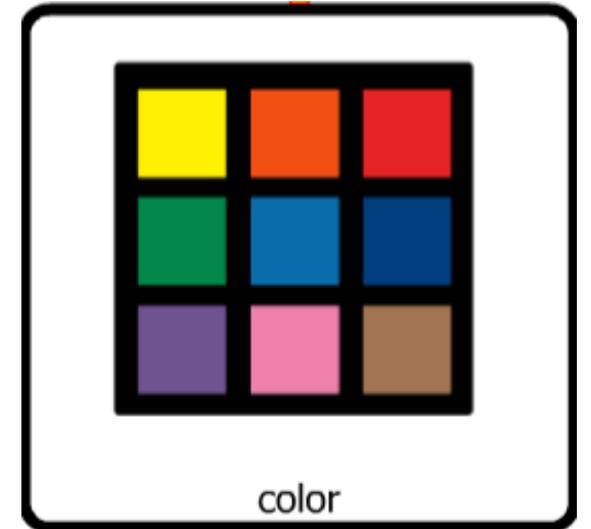

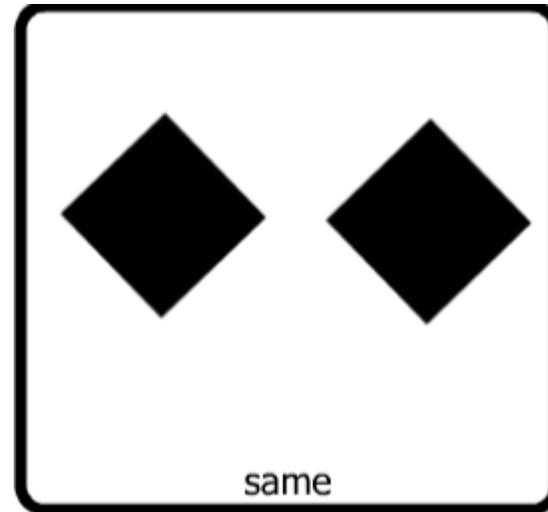

Step 1: Spin the spinner. What color did you land on?

If you don't have a spinner just pick a color card

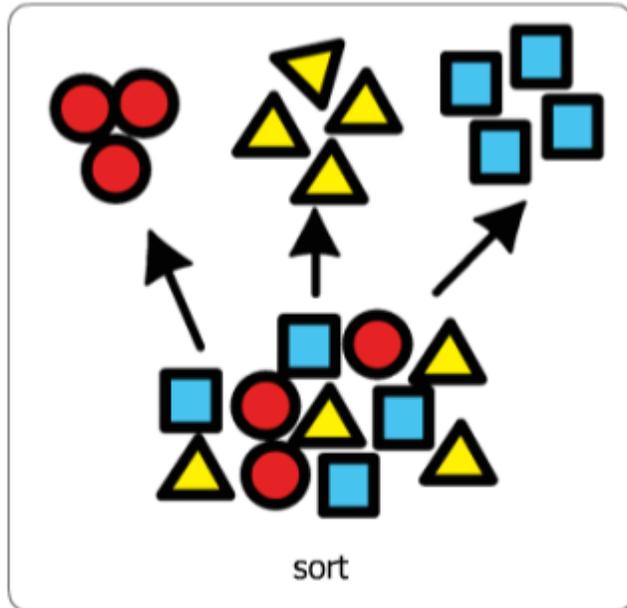

Step 2: Reach into the bin of animals and find an animal that is the same color!

Step 3: Help this animal get back to his home! Put him on the color home that is the same color as the animal.

Repeat Step 1, 2 and 3 until all the animals have been sorted in their homes back at the zoo.

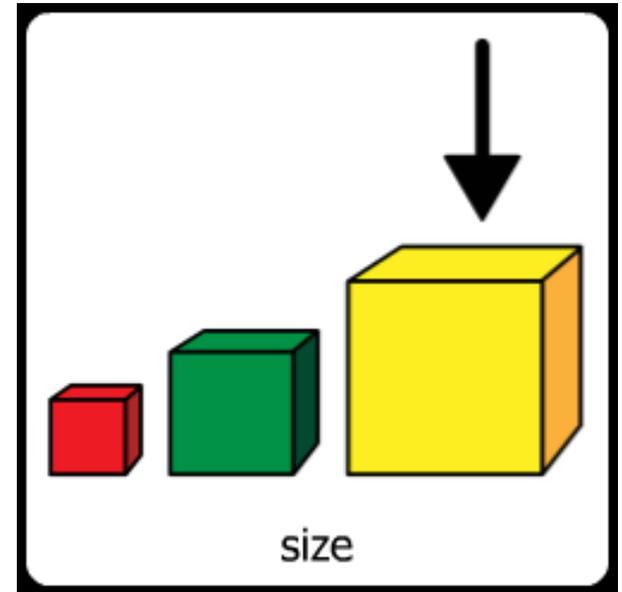

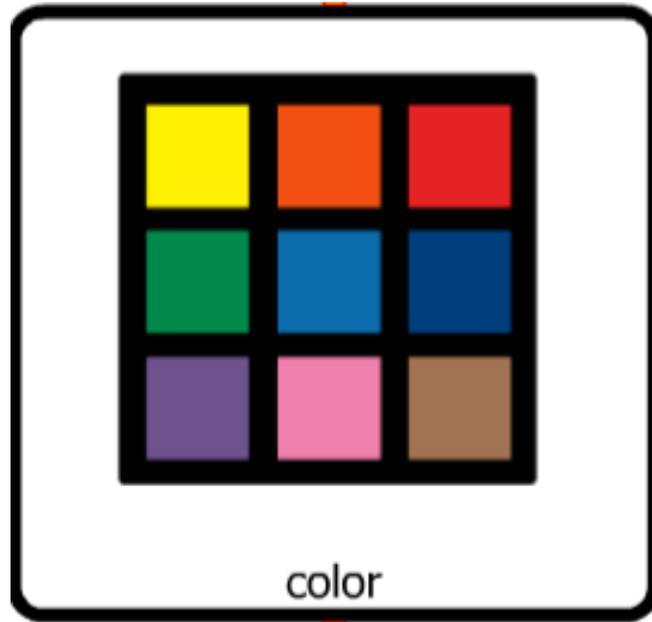

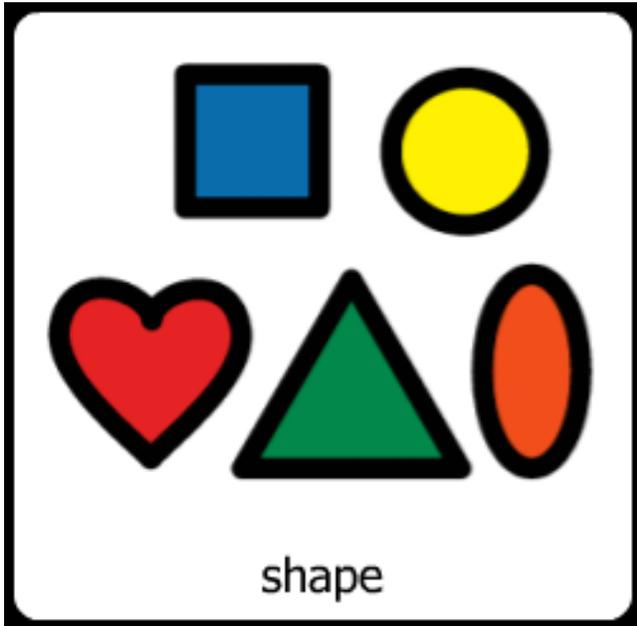

Today we learned about sorting animals by color.

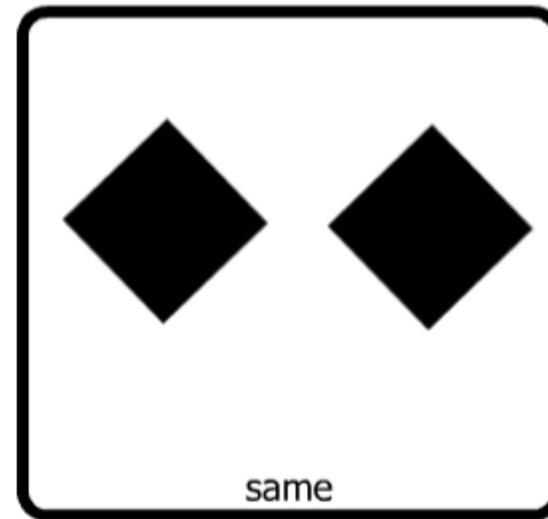

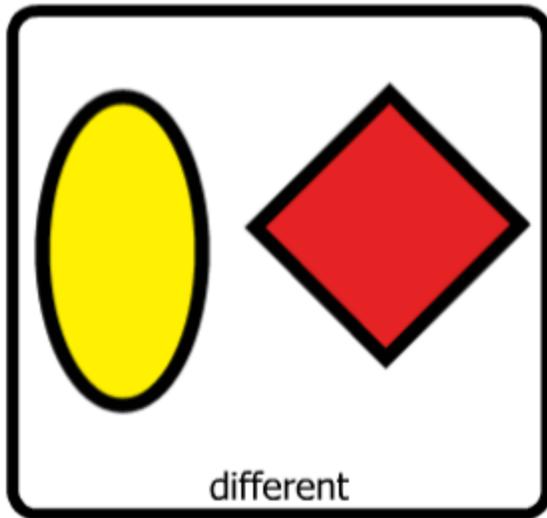

Quiz Questions

1. How did you sort the animals?

Quiz Questions

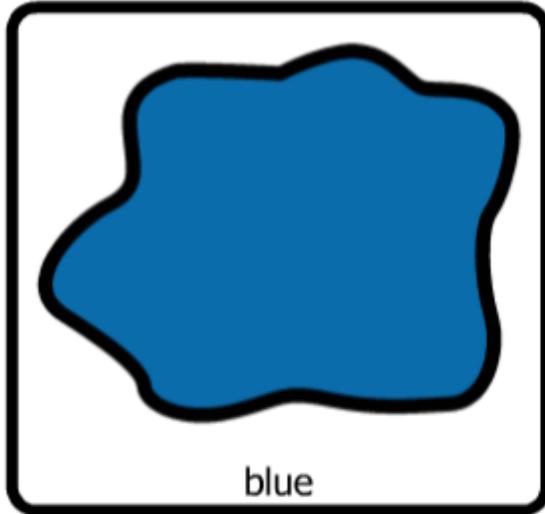

2. When sorting the animals back to their homes, you sorted animals that were the _____ color.

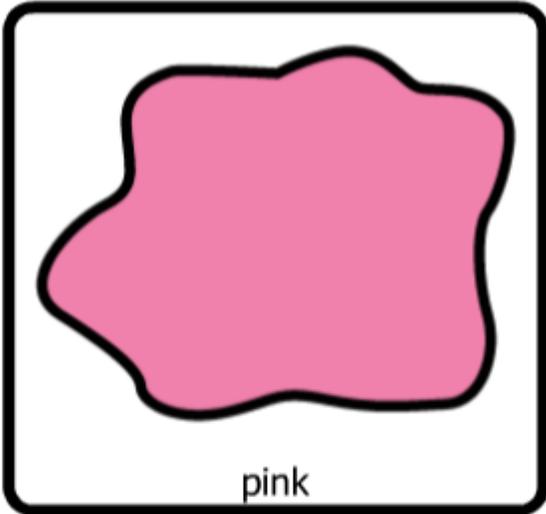

We are ALL DONE!

- Teacher says “_____ is All Done! Time for _____!”
- Teacher says “Everyone check schedule!”
- Teacher changes the classroom schedule.
- Paras will assist individual students with checking schedules.
