

Important Update re: COVID-19

from Gil Fonger, President & CEO

Sept. 17, 2020, 3:00 p.m.

- **Wasmond Center Residents Have Negative Test Results**

We are very pleased to report that the first round of tests completed on residents at the Marklund Wasmond Center (MWC) in Elgin have come back **negative** for the COVID-19 virus.

We expect to get results from staff tests next week.

Per IDPH requirements, we need to do two rounds of testing on those residents and employees who may have had contact with the staff member who tested positive last week.

The second round of tests for residents will be taken today.

We are encouraged that no one is presenting with any COVID-like symptoms at this point.

Thank you,

GILBERT FONGER, President & CEO
