

Important Update re: COVID-19

from Gil Fonger, President & CEO

Aug. 20, 2021; 1 p.m.; Issue 112

- **Positive case at Marklund Day School-Geneva:**

We received confirmation that a staff member at the Foglia Education Center at Marklund Day School-Geneva tested positive today. This person is unvaccinated and developed symptoms in route to work this morning. Marklund nursing staff completed a rapid test prior to the individual entering the building, and the staff member was sent home. Contact tracing has been completed and testing completed on any other staff who may have been exposed.

Parents of students in the three classrooms that are affected were contacted to pick up their children; these students will do full remote learning during the required quarantine period, per our mitigation plan and guidance from the Kane County Health Department.

We are still awaiting final guidance regarding the government's vaccine mandate for all healthcare workers, which we hope to be able to share with everyone soon.

Regards,
