

Important Update re: COVID-19

from Gil Fonger, President & CEO

Sept. 16, 2021; 5 p.m.; Issue 116

- **New positive COVID case at Geneva campus**

A vaccinated staff member who works at the Foglia Education Center at Marklund Day School-Geneva has tested positive for COVID-19. This person, who is not directly part of the education staff, last worked Monday, Sept. 13.

Contact tracing has been completed and any staff considered to have been in close contact have been alerted. At this time, it does not appear that any students were exposed to this employee so classes will not be affected. Areas in which this person worked are being disinfected according to protocol.

Currently all classrooms at this school are providing in-person learning.

We will keep everyone informed if additional cases develop.
