

Important Update re: COVID-19

from Gil Fonger, President & CEO

March 1, 2022; 3 p.m.; Issue 171

• **New positive staff cases:**

- Geneva campus:

- 1) A direct care employee (vaccinated, not boosted), tested positive this morning during surveillance testing. This person is currently asymptomatic but worked last night in the Richard (MRH) and Dreher (MDH) homes. This puts these two homes into outbreak status until March 16. Nursing staff is currently working on contact tracing and testing of staff and residents from both homes.
- 2) A nurse from our In-House Registry (IHR) tested positive after developing symptoms from an ongoing community exposure. This person had not been at Marklund for several days, so this is not considered facility-based nor does it put any additional area into outbreak.

Regards,

GILBERT FONGER, President & CEO,
