

INDOOR VISITATION FACT SHEET

Guidelines per the State of Illinois LTC Reopening Plan

Outdoor visits remained the preferred option for in-person visitation, due to decreased risk of exposure to COVID-19 for all residents and staff in our facility. When weather or other circumstances do not allow for outdoor visits, indoor visits may be scheduled with residents who are not in quarantine or isolation due to suspected or known COVID-19 infection.

Indoor Visiting Hours: Monday – Friday 9:00 a.m. – 3:00 p.m.

Evening/weekend visits available upon request as staffing/circumstances allow.

- Visits are by appointment only. Please call the facility to schedule a visit. Each indoor visit will be limited to 30 minutes to allow for thorough cleaning/disinfection between scheduled visits.
- Visitors are limited to parents, guardians, siblings, and individuals listed on the guardian's approved visitation list. Residents may have up to four visitors at a time, but visitors must be from the same household if visiting together. (Exceptions may be made for compassionate care visits.)
- Visitors should remain in the designated meeting area during their visit.
- Visitors must be pre-screened on the phone by facility staff between 12-24 hours before their appointment time and be screened in person by facility staff at the time of their appointment.
- Visitors with any of the CDC COVID-19 Symptoms (<https://www.cdc.gov/coronavirus/2019-ncov/symptoms-testing/symptoms.html>) should not visit the facility! Please review the symptom list each time before coming to Marklund as the listed symptoms may change.
- Visitors must notify the facility's Administrator or Director of Nursing immediately if they develop any of the COVID-19 symptoms listed on the CDC website within the **three days** following their visit.
- **Vaccinated residents may choose to have close contact (including touch) with their visitor as long as the visitor is wearing a well-fitting face covering, and the resident and visitor perform hand hygiene before and after the contact.** Visitors should continue to maintain a 6-foot distance from residents who are not fully vaccinated during their visit.
- Residents with any of the COVID-19 symptoms listed on the CDC website will not be able to have in-person visits. Virtual visitation may be possible as an alternative for some of these situations.

All visitors must wear a **face covering/face mask at all times** when on Marklund property for a visit, maintain a **distance of at least 6 feet** from residents as noted, and practice proper **hand hygiene** as directed by Marklund staff.
