

# OUTDOOR VISITATION FACT SHEET

*Guidelines per the State of Illinois LTC Reopening Plan*

- Visits are by appointment only. Please call the facility to schedule a visit.
- Visitors are limited to parents, guardians, siblings, and individuals listed on the guardian's approved visitation list.
- Residents may have up to four visitors at a time. Visitors must be from the same household if visiting together.
- Visitors must be pre-screened on the phone by facility staff between 12-24 hours before their appointment time and be screened in person by facility staff at the time of their appointment.
- Visitors will not be able to enter the facility to use the building's facilities if the facility had suspended in-person visitation.
- Visitors with any of the CDC COVID-19 Symptoms (<https://www.cdc.gov/coronavirus/2019-ncov/symptoms-testing/symptoms.html>) should not visit the facility! Please review the symptom list each time before coming to Marklund as the listed symptoms may change.
- Visitors must notify the facility's Administrator or Director of Nursing immediately if they develop any of the COVID-19 symptoms listed on the CDC website within the **three days** following their visit.
- **Vaccinated residents may choose to have close contact (including touch) with their visitor as long as the visitor is wearing a well-fitting face covering, and the resident and visitor perform hand hygiene before and after the contact. Visitors should continue to maintain a 6-foot distance from residents who are not fully vaccinated during their visit.**
- Residents with any of the COVID-19 symptoms listed on the CDC website will not be able to have in-person visits. Virtual visitation may be possible as an alternative for some of these situations.

All visitors must wear a **face covering/face mask at all times** when on Marklund property for a visit, must maintain a **distance of at least 6 feet** from residents as noted, and practice proper **hand hygiene** as directed by Marklund staff.
