

## Important Update re: COVID-19

*from Gil Fonger, President & CEO*

Dec. 24, 2021; 12 p.m.; Issue 139

- New positive staff in Geneva

Yesterday evening, an employee began to feel ill while working the PM shift at the Marklund Haverkamp home (MHH), was rapid tested and sent home; the rapid came back positive. This person, who is vaccinated, is following up with a PCR test for confirmation. This resets Haverkamp's outbreak status - with no additional positives they will be out of outbreak on January 7, 2022.

We would like to encourage those who have not yet gotten the booster vaccine to do so, as it appears to reduce symptoms of this Omicron variant.

Merry Christmas and God Bless you!
