

Important Update re: COVID-19

from Gil Fonger, President & CEO

Dec. 29, 2021; 3 p.m.; Issue 143

- **New positive cases among staff**

We have reports of 4 additional staff testing positive for COVID.

- Philip Center (MPC): 2 direct care staff, both vaccinated/not boosted. One is asymptomatic, and the other has mild symptoms. This person is considered presumed positive after taking a home test, and has followed up with a PCR test taken offsite.
- Hyde Center (MHC): 1 administrative employee, vaccinated/not boosted. This person is asymptomatic after having a community exposure.
- Sayers Home (MSH): We have lab confirmation that the presumed positive case that we reported a couple days ago is in fact positive.

- **Resident cases in Geneva and Elgin**

Three Marklund residents have tested positive today, two in Geneva, one in Elgin.

- Sayers Home (MSH): Resident is asymptomatic, vaccinated/boosted.
- VanDerMolen Home (MVH): Resident is asymptomatic, unvaccinated.
- Wasmond Center (MWC): Unvaccinated due to age, this resident has developed symptoms after an exposure to a visitor who subsequently tested positive.

As we approach this next holiday, please keep in mind how contagious this variant is and be safe.

Thank you—

GILBERT FONGER, President & CEO,
