

Important Update re: COVID-19

from Gil Fonger, President & CEO

Jan. 11, 2022; 3 p.m.; Issue 155

- **Additional staff test positive:**

As of yesterday, Jan. 10, the CDC Community Transmission Rate were 16.69% for Cook County (Wasmond Center), 19.93% for DuPage County (Philip Center) and 22.20% for Kane County (Hyde Center). That is an increase in all of our counties from last week, which is clearly why we are still seeing positive cases among staff.

- **Wasmond Center (MWC):**

- 1) A direct care employee (fully vaccinated/not yet eligible for booster) tested positive via rapid yesterday after developing symptoms offsite. This person last worked Friday night. PCR is pending.

- 2) Another direct care employee tested positive today during outbreak testing. This person, who is asymptomatic, worked the PM shift yesterday. PCR is pending.

- **Hyde Center Campus (MHC), Geneva:**

- 1) A direct care staff (unvaccinated) tested positive yesterday afternoon during surveillance testing. This person has not worked in any of the homes recently. PCR test is pending.

Thank you—
