

Important Update re: COVID-19

from Gil Fonger, President & CEO

Jan. 21, 2022; 3 p.m.; Issue 162

• **Positive staff cases:**

- **Philip Center (MPC), Bloomingdale:** A direct care employee (vaccinated/boosted), tested positive via rapid offsite yesterday after developing symptoms. This individual last worked Sunday, Jan. 16, and had had a negative PCR surveillance result after that shift. This does not affect MPC's outbreak end date.

- **Sayers Home (MSH), Geneva:** An IHR direct care employee (vaccinated/not boosted) tested positive yesterday via offsite test. This employee last worked in MSH on Jan. 12. This is not a facility-based case and does not affect MSH's out-of-outbreak date.

• **Outbreak dates adjusted:**

Based on IDPH (IL Dept. of Public Health) guidance, we were able to adjust some of the outbreak status end dates for our sites. See the chart below.

Have a nice weekend,

GILBERT FONGER, President & CEO,
