Important Update re: COVID-19

from Gil Fonger, President & CEO

Feb. 6, 2022; 3 p.m.; Issue 166

- **New positive staff case:**

- Wasmond Center, Elgin (MWC): A direct care employee (vaccinated, not yet eligible for booster), tested positive on a home-based test yesterday following symptom onset. PCR test is pending. This individual was last in the building for the day shift on Thursday, Feb. 3.

While continuing to see a few cases pop up, we are cautiously optimistic that we're getting close to the day when all of our sites will be out of outbreak and can return to normal activity. According to the CDC, Cook County has finally dropped below a 5-percent positive community transmission rate. DuPage and Kane are still above at 9.47% and 11.76% respectively, but are heading in the right direction.

Enjoy the rest of your weekend.
