

Important Update re: COVID-19

from Gil Fonger, President & CEO

April 29, 2022; 3 p.m.; Issue 180

• **Staff positives found at Elgin and Geneva**

- **Marklund Wasmond Center (MWC), Elgin:**

- 1) A direct care employee (unvaccinated) tested positive yesterday morning, April 28. This person last worked Wednesday, April 27, and as a result, MWC will be on Outbreak status until May 13.
- 2) Another direct care employee (vaccinated/boosted) tested positive today after developing symptoms yesterday following a community exposure. This person last worked Monday, April 25, so this non-facility-based case does not affect the current outbreak status at MWC.

- **Marklund Hyde Center (MHC) and Tommy Home (MTH) Geneva:**

A new employee in this week’s orientation class (unvaccinated) tested positive today after sudden symptom onset. This person has been training in MTH and the MHC CDS classroom. This will put MTH in Outbreak until May 14.

In all circumstances, contact tracing is completed testing of exposed staff/residents underway.

Stay safe!
