

Important Update re: COVID-19

from Gil Fonger, President & CEO

May 11, 2022; 3 p.m.; Issue 186

• **Staff and resident cases found on Geneva campus**

1) A resident (fully vaccinated/boosted) of the **Marklund Richard Home (MRH)** tested positive yesterday, May 10, after developing minor symptoms. We have implemented droplet and isolation protocol for this resident to help reduce the chance of the virus spreading.

2) A direct care employee (vaccinated/not boosted) also tested positive yesterday during surveillance testing. This person is currently asymptomatic.

3) In addition, another direct care staff (vaccinated/not boosted) tested positive today after developing symptoms after working a shift on Monday.

4) A staff member in the Community Day Services classes at the Hyde Center in Geneva who works with MRH residents tested positive during outbreak testing this afternoon. This person (vaccinated/not boosted) worked today and is currently asymptomatic.

MRH will be quarantining residents through May 26, or until all residents test negative during two rounds of testing.

Regards,

GILBERT FONGER, President & CEO,
