

# Important Update re: COVID-19

*from Gil Fonger, President & CEO*

May 3, 2022; 4 p.m.; Issue 182

- **Positive case reported in Geneva**

- **Marklund Hyde Center-Geneva (MHC):**  
An employee who works in administration at MHC (vaccinated/boosted), tested positive on an offsite rapid test Monday, May 2, after exposure followed by symptom onset. PCR result is pending. This person last worked on campus on Friday, April 29.

- **Community Transmission Levels at High**

CDC Community Transmission Levels remain at HIGH for all three counties (Cook, DuPage and Kane) in which Marklund has facilities. This means we will continue with twice a week surveillance testing for those staff who do not have the booster vaccine, and to require eye protection be worn by staff and volunteers when around residents.

Regards,

GILBERT FONGER, President & CEO,
