- **New Positive case reported in Geneva**

An administration staff member (vaccinated/not boosted) on the Geneva campus tested positive yesterday during regular surveillance testing. This person is currently asymptomatic and has not had any contact with residents or students. This will not affect the Outbreak Status at the school or any of the campus buildings in Geneva.

Honestly, I never would have imagined that we would still be feeling the effects of the pandemic more than two years into it. I am very grateful for everyone who continues to be patient and understanding as we navigate this latest bump in positive cases.

Thank you,
