

# Important Update re: COVID-19

*from Gil Fonger, President & CEO*

June 21, 2022; 2 p.m.; Issue 214

- **Staff case at Wasmond Center (MWC), Elgin:** A direct care employee at MWC tested positive with an offsite rapid test after developing symptoms. PCR is pending. This person was on PTO and has not been onsite since June 8. MWC is currently out of Outbreak and this case will not affect its Outbreak Status.
- **Hyde Center water issue:** The Mill Creek Water Reclamation District, which provides water to the Mill Creek subdivision including the Marklund Hyde Center campus, experienced a water main break early today. Marklund administration made the decision to close the Hyde Center for the day to office staff. However, residents are able to participate in CDS since water is being brought in to the classrooms. Each home is also stocked with a supply of water to use in emergency situations, and is being restocked as needed. The Reclamation District is hoping to remedy the situation by early evening.

Feel free to contact me with questions or concerns.
