

Important Update re: COVID-19

from Gil Fonger, President & CEO

June 3, 2022; 3 p.m.; Issue 204

• **Marklund Van Der Molen Home (MVH):**

A direct care employee tested positive yesterday after developing symptoms. This person last worked on Tuesday, May 31.

• **Marklund Wasmond Center (MWC):**

A direct care employee tested positive today after onset of symptoms while at work. This extends MWC’s Outbreak Status to June 18.

• **County Transmission Data Update**

The good news: CDC Community Transmission Rates dropped a bit in all three counties in which Marklund has locations. However, with the rates currently at 6.5% (Cook), 12.64% (DuPage) and 10.76 (Kane), all three are still considered in the High level. For Marklund, this means as a long-term-care facility, we are still required to do twice a week testing for staff who are not Up-To-Date with vaccines, and that all direct care staff must wear eye protection when with residents.

Hopefully, this downward trend continues!

Take care,

GILBERT FONGER, President & CEO,
