

## Important Update re: COVID-19

*from Gil Fonger, President & CEO*

Aug. 14, 2022; 3 p.m.; Issue 232

**Marklund Hyde Center (MHC), Geneva:** A direct care staff member who works out of the Hyde Center in Geneva tested positive yesterday following symptom onset. This person worked with a small number of other staff and residents during Community Day Services (CDS) on Thursday. Contact tracing for potentially exposed staff and residents has been completed. Since the exposure occurred at MHC during CDS, this does not affect any of the homes' outbreak statuses, however, those residents who were in close contact will be tested per protocol and quarantined if not up-to-date on vaccinations.

Thank you—
