Positive Residents in Geneva

Marklund Sayers Home (MSH), Geneva: Two residents from MSH received positive results on their PCRs taken yesterday during surveillance testing. Although initially asymptomatic, both residents now have symptoms. This extends the Outbreak status at MSH to Sept. 14.

This is the first resident case we’ve had at any of our sites since July 14. Prior to that, the last positive resident case was June 9. This is a great testament to the care consistently being provided to the men, women and children whom we serve!

Regards,

GILBERT FONGER, President & CEO,
