Positive case at Day School

Marklund Day School (MDS), Geneva: A school employee at the Foglia Education Center tested positive yesterday following community exposure. This person is currently asymptomatic and last worked on Tuesday, Oct. 11. Contact tracing, notifications, and initial testing has begun.

Resident testing

So far, testing completed on residents at all sites that are currently on outbreak has returned negative. We hope to be out of outbreak and have the residents back in the CDS classrooms next week.
