### Positive case in Geneva

**Marklund Hyde Center (MHC), Geneva:** A direct care employee tested positive this morning during surveillance testing. This person is currently asymptomatic. Close contacts have been notified. This case does not affect any of the homes on the Geneva campus.

### **Changes in requirements**

We are still awaiting final word from IDPH (IL Dept. of Public Health) on how the Governor's recent changes to COVID requirements for long-term care facilities will affect us at Marklund. As soon as we hear anything, we will share. Stay tuned!
