

## Important Update re: COVID-19 *from Gil Fonger, President & CEO*

Oct. 31, 2022; 4 p.m.; Issue 259

### **POSITIVE CASES IN BLOOMINGDALE AND GENEVA**

**Marklund Day School-Bloomingtondale (MDS):** A school employee who works in the Ann Haskins Center (AHC) at MDS-Bloomingtondale tested positive this morning after onset of symptoms. This person did not work during the 48-hour infectious period, so this has no effect on AHC staff or students.

**Marklund Day School-Geneva (MDS):** A school employee who works in the Foglia Education Center (FEC) of MDS-Geneva tested positive today after developing symptoms over the weekend. This person did work onsite on Thursday/Friday of last week, which falls during the infectious period. Contact tracing has been completed at FEC.

**Marklund Hyde Center (MHC), Geneva:** An administrative staff member received positive results from a test done on Friday, Oct. 28, after being exposed and developing symptoms. This person had been on PTO and/or was working from home during the infections/testing time so there were no close contacts.
