Additional cases in Elgin

Marklund Wasmond Center (MWC), Elgin: A direct care employee tested positive today via homebased test after onset of COVID-like symptoms. Rapid/PCR confirmation is pending. This person did not work during the past 48 hours, so this does not change MWC’s Outbreak Status date of Nov. 19.

In addition, we received information that two MWC residents tested positive after developing symptoms on Friday.

Since last Sunday, six residents and five staff members have tested positive. I want to commend the staff at MWC for putting forth the extra effort this week with this unfortunate uptick in cases.

Thank you --
