New case in Geneva

Marklund Hyde Center (MHC), Van Der Molen (MVH), Sayers Home (MSH), Geneva:

- A direct care employee received positive PCR results last night after symptom onset Tuesday (after a work exposure). This person last worked Monday with residents from MVH and MSH. This will put MVH into Outbreak Status, until Dec. 13 at the earliest. So far, all MVH residents have tested negative
- Since MSH just got out of Outbreak and everyone was tested twice already this week, we are going to do exposure testing for those three MSH residents who are considered to have been close contacts of this staff member. MSH will not go on Outbreak status unless one of them tests positive.

Have a safe weekend,
