Positive staff in Geneva

Marklund Tommy Home (MTH), Geneva

A direct care staff member tested positive yesterday after a high-risk work exposure at MTH this weekend, followed by symptom onset Wednesday night.

This does not affect MTH's outbreak date, as the last shift this employee worked there was prior to the beginning of our outbreak testing. All residential staff/residents who may have had contact with this individual have already completed two rounds of testing.

Managers have notified any other potentially exposed for testing.

Have a nice weekend.
