

Important Update re: COVID-19 *from Gil Fonger, President & CEO*

Jan. 30, 2023; 3 p.m.; Issue 301

New cases in Bloomingdale, Geneva

Marklund Philip Center (MPC), Bloomingdale

An MPC resident tested positive this morning after fever onset. All residents and applicable staff will be tested today. This puts MPC into Outbreak Status to Feb. 3.

Marklund Day School-Bloomingdale (MDS)

A 1-on-1 nurse in an Multi-Needs classroom tested positive yesterday after symptom onset. This person, who is provided by the student’s home district, worked in the classroom last Friday, Jan. 27. MDS administration has notified any potential staff of exposures as well as informed parents of students.

Marklund Hyde Center (MHC), Geneva

A direct care staff member working in the Community Day Services (CDS) area at MHC tested positive this morning after exposure last week and onset of minor symptoms this weekend. Staff and clients were already undergoing exposure testing in the classroom; management notified other potentially exposed staff.

This does not affect the homes, as the employee did not work with any residential clients.

Thank you,

GILBERT FONGER, President & CEO,
