Additional Cases in Bloomingdale and Geneva

Marklund Philip Center (MPC), Bloomingdale

An MPC resident tested positive yesterday during exposure testing. Being the second resident to become positive this week, this is considered a facility-onset case and does put MPC into outbreak until Feb 28.

Marklund Haverkamp Home (MHH), Geneva, and Marklund Day School in Geneva and Bloomingdale

A direct care staff who recently worked at MHH, as well as in the Ann Haskins Center of MDS-Bloomingdale and the Foglia Education Center at MDS-Geneva tested positive yesterday after developing symptoms. This is considered a facility-associated case but as an individual occurrence, does not put the sites into Outbreak.

Take care,

GILBERT FONGER, President & CEO,
