New cases in Geneva and Elgin

Marklund Day School (MDS), Geneva

An employee at the Foglia Education Center (FEC) of MDS-Geneva tested positive last night after symptom onset. Contact tracing determined that this case does not affect the residential facilities. School administration notified any MDS staff/student families of potential exposure.

Marklund Wasmond Center (MWC), Elgin

A direct care employee tested positive this morning after developing symptoms. This person last worked on March 3, so was not in the facility during the infectious period. MWCs Outbreak Status will remain at March 22.
