

Important Update re: COVID-19 *from Gil Fonger, President & CEO*

April 5 , 2023; 3 p.m.; Issue 331

Additional COVID Cases on Geneva campus

Marklund Hyde Center (MHC), Geneva:

A direct care staff member who works at MHC tested positive this morning after developing symptoms. Contact tracing and exposure testing has begun. This does not affect any of the facilities.

Marklund Dreher Home (MDH), Geneva

An agency direct care staff member tested positive this morning via homebased test after experiencing symptoms. This person worked the p.m. shift at MDH Monday/ Tuesday. The Outbreak date will remain at April 19.

Marklund Tommy Home (MTH), Geneva

A MHT resident tested positive today during exposure testing and is currently asymptomatic. All other residents at MTH have tested negative. This is considered a facility-onset case but since it is a single case, it does not put the home on outbreak at this time.

Regards,

GILBERT FONGER, President & CEO,
