Members of the Menta Education Group's transition program in DeKalb volunteered at the Marklund Hyde Center campus in Geneva Wednesday, Oct. 4.

They worked on Halloween craft activities with clients in Marklund's Community Day Services program.

The volunteer group of young adults, ages 18-21, were excited to meet some new friends at Marklund and are planning to volunteer on a monthly basis.

Marklund welcomes members of the community into its Community Day Services program.

Those adults who qualify may attend classes during the week to enhance prevocational skills and receive specialized therapy.
